The UNCG Center for Housing and Community Studies is building partnerships with Greensboro residents to address housing conditions that contribute to asthma and increased levels of lead in homes. The Health Impact Team is reaching out to offer information on health and housing, provide risk assessments, and make referrals to local organizations.

Door-to-Door Surveys
- Apartments and condos
- Family homes
- Health fairs

Referrals
- Green Cleaning Kits
- Healthy Home Assessments
- Lead Safe Housing Program

Green Cleaning Kits
- No harmful chemicals
- Safe for children and pets
